

Solar LED Garden Lights Flickering Flames Torches Lights Landscape Decoration

Our Product Introduction

for more products please visit us on solarpanelstreetlight.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CO-SHINE
- Certification: CE RoHS
- Model Number: HC-4D96
- Minimum Order Quantity: 20PCS
- Packaging Details: color box
- Delivery Time: 3 days after the payment
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 10000PCS per month

Product Specification

- Lamp Power: 2w
- Light Color: Yellow
- Solar Powered: Yes
- Sensor Mode: Optical Control
- Charging Time: 6 Hours
- Working Time: 8-10 Hours
- IP Rating: IP65
- Life Time: 50,000hrs
- Highlight: commercial solar pole lights

Product Description

Waterproof Solar Led Garden Lights Flickering Flames Torches Lights Landscape Decoration

Product description:

Features:

- Dancing Flames Design: A safe alternative to the real "flames" — LEDs in the light cast a safe, soft, mood-enhancing glow. The actual height of the solar torches is 30.7 inches.
- Long Working Time: Built-in rechargeable Li-ion battery (2200mAh), Light up 10 hours in summer and 5 hours in winter after fully charged. Charging time: 8 hours for sunny day.
- Auto On/Off from Dusk to Dawn: Solar lights with daylight sensor, auto solar power charging all day, then turn on the bulb automatically at dusk and turn it off when it's dawn.
- Easy Installation: No wiring required, simply install flame solar lights outside like yard, pathways, pool, garden, bench, patio, fence, deck, or outdoor events like party, camping, barbecue, wedding, Christmas, Halloween festival.

Specification:

Item No	HC-4D96
Power	2W
LED Lamp	2835 LED 96PCS 1800K-2200K
Solar Panel	5.5V 1.5W, Polycrystalline
Battery Type	Lithium-Ion 3.7V 1.5AH
Charging Time	6-8 Hours
Discharging Time	8-10 Hours
Lumen	160 lm/w
Material	ABS+PC
Install Height	2-4 m
IP Grade	IP65
Color temperature	1800K-2200K
Certificate	CE, ROHS
Application	Garden, Courtyard, Road, Pathway, Outdoor, etc.
Warranty	3 years

More details:

The screw base is fixed and the wind and rain are not a problem.

Can dismantle the base
Replaceable base, pluggable and wall hanging
Base type

HIGH QUALITY GAS FIELD

No need for wiring, complex installation,
automatic charging during the day,
and automatic lighting
at night. Optimize material details
with high quality visible.

Matters needing attention

1. For the first time, please recharge the product in the sun and recharge it for a few hours.
2. When the product is not used for a long time, please take out the battery and charge the battery once every 3 months to ensure that the battery is not damaged for a long time, or to charge the lamp once a month.
3. When the lights are flashing, it means that the battery is not enough, and it needs charging before it can be used normally.
4. The effect of the actual solar panel charging depends on the length and weather conditions of light, the faster the sun is charged, the longer the lighting time is, the more the charging effect is, the recharging effect of the cloudy and rainy days is weakened and the light time is shortened.
