## Product Description

### DMX Digital LED Studio Lights , LED Light Panels For Photography

LS LED Studio Lights , 3200K-5600K Studio LED light panel with high CRI

#### Product Description

It is the round shape ultra soft LED light use the new Tech of using ultra bright LEDs on the edge of the light housing. The light beam bounced from the inside diffusion panel which is different to the traditional LED light bounced directly from the LED board. When this new tech on the LED light, people benefit a lot because the light is soft, no sharp unhappy beam.

The color temperature variable from 5600K to 3200K make it no need the extra color gel or diffuser. The complete light kit include

#### Specifications
