Description: Super outdoor flood light**Imported light source:**

Higher brightness than ordinary flood light, longer life, low light decay, good color temperature consistency

Thick aluminum casing:

Made of thick die-cast aluminum, painted on the surface, not easy to corrode, durable, not easy to damage

Selected radiators:

Designed with strong air convection principle, multi-chip heat dissipation, better thermal conductivity, better solution to heat dissipation and guaranteed light source life.

Quality Led Source :

High brightness
Low heat production
Durable and safe
Long lifespan

Excellent Heat Dissipation:

Installed heat sink increase the airflow , speed the air convection efficiently, anti corrosion and crack resistance.

Quality Tempered Glass Mask:

Fully sealed and protecting the inside chip from water and dust, high brightness

Stainless Steel Plug:

Plug made of best alloy, two layers of rubber seal at the end side, waterproof and solid.

Shipping:
