Product Description

Die - Cast Aluminum COB Led Recessed Ceiling Lights 3W 220V Adjustable Angle For Shopping

Mall

Features

1. Radiator

Wrought aluminium radiator,thermal conductivity is up to 200;

The thermal conductivity of Heat-Conducting Silicone Grease is 3.5,ensure that the heat of the light source is transmitted to the radiator fully;

National standard needs the LED temperature of the pin is less than 85 ,we promise ours is less than 65 ,and surface temperature of light is less than 60 ;

All of those ensure that your light source has a longer life span.

2. Reflector

Use firsthand PC materials from Bayer/Teijin,Heat resisting,Fire rated,High flame retardancy,High flexibility;

In the high temperature at 90 ,over 30,000 hours, there will be no yellowing;

Surface Coating,The reflective index is up to 90%.

3. Light source

Original Epistar,Citizen,Cree Chips,High Lumen,High Luminous Efficiency,Low Thermal Resistance;

Good consistency light color,according to different demands choose better professional color;

Faithful color rendering index is up to 97%,has better restore performance;

Luminous efficiency of light source is up to 120 lm/w.

4. Power supply

Approved by CCC CE TUV UL SAA etc;

High conversion efficiency;

Isolated low-voltage power supply,High security.

5. Advantages

During warranty period,we promise light failure is less than 30% Or light failure is less than 6% per year;

Sphere photometric and IES test available, provide all the lighting effect design doc;
